Administrative history / Biographical sketch

Note

It had been common practice to put small amounts of original material in clippings files. However, in 2015 the City of Edmonton Archives established a clippings committee to follow best practice and remove original archival material from the clippings files. The committee created a new classification within the private records (MS) collection and the government records (RG) collection to hold this material and make it accessible.

Custodial history

As original material is removed from the clippings files, it is reviewed by the Clippings Committee for consideration in other fonds/collections; material with no previous accession number is included in this RG, given an accession number upon final decision of placement.

Scope and content

The collection consists of original material removed from the City of Edmonton Archives Clippings collection.
